

Preface

Spectrum journal of dental sciences is a peer-reviewed, open access journal that publishes original research articles, review articles, and clinical studies in all areas of dentistry, including periodontal diseases, dental implants, oral pathology, as well as oral and maxillofacial surgery. It is also interested in publishing review articles and leaders in the medical areas which will be linked to new

scientific research. Topics covered include the management of dental disease, periodontology, endodontology, operative dentistry, fixed and removable prosthodontics, dental biomaterials science, long-term clinical trials including epidemiology and oral health, technology transfer of new scientific instrumentation or procedures, as well as clinically relevant oral biology and translational research.
